2.4x
more clicks
66 → 156 (first vs. last 30 days)

#57 → #31
average ranking
latest week: #23

+68%
more impressions
16.3K → 27.5K per 30 days

+43%
higher click rate
0.40% → 0.57%

Weekly clicks from Google

Average Google ranking (higher is better)

What moved the needle

- Answered the exact questions people search, like **"when is open enrollment 2027"**
- Built free tools people use, like an **ACA subsidy calculator** (74 clicks)
- Merged duplicate pages so Google knows which one to rank
- Put dates, prices and next steps in page titles

What the numbers mean

- Weekly clicks went from **2 to 46** at peak
- Google now shows the site **~6,000+ times a week**
- Searching **"VS Health Benefits"** ranks #1 with a 22% click rate
- Next goal: page 1 for the 2027 Open Enrollment guide before Nov 1

Top performers

78 clicks
Homepage
