10 Your next 30 days 12

> **How to use this:** read it once start to finish, then live in the last page — your next 30 days. Revisit the phase you're in every month and check your exit criteria.

01 · STARTING POINT

Where you are now

You're further along than a typical Phase 1 agent. The dialer pays the bills, but you've already built most of the machine that replaces it. What's missing is traffic that converts, a daily rhythm, and your first hire.

248	40+	~6x	~4/day
Website pages built	States licensed	Search impressions since June	Website clicks — the gap

What you already have

- Niche pages: truckers, owner-operators, South Florida small business, ICHRA, level-funded, Spanish
- GoHighLevel CRM, email templates, member portal
- AI phone agent "Amanda" and referral automation
- Refer & Earn program + trucking partner game plan
- Outbound lists: 37 verified restaurants, contractor sequence

The gap to close

- Site is visible but not yet producing leads
- Most clicks come from people already searching your name
- Your income still depends on bought leads
- No one yet handles admin, service, or follow-up for you

> **North Star:** Your own marketing and partners feed a team of agents, an assistant runs operations, and you spend your time on recruiting, partnerships, and big group cases.

Assumptions: you sell under-65 individual/family (ACA and private) plus small group; you're paid mostly first-year commission plus renewals; today's dialer leads come from your upline or call center.

02 · OVERVIEW

The 5-phase roadmap at a glance

Each phase has one job. Move on only when you hit its exit criteria — hiring before cash flow or recruiting before a system is how agencies stall.

1
Master the dialer
NOW – MAR 2027

2
Build your own lead engine
JAN – DEC 2027

3
Systems & the assistant
MID 2027 – 2028

4
Build the team
2028

5
Brokerage on coast
2029 +

Phase	The one job	Exit criteria — move on when…
1. Master the dialer	Become an elite closer and bank cash	3+ months at your target close rate · 3–6 months of expenses saved · open enrollment worked hard
2. Own lead engine	Replace bought leads with your own	50%+ of sales from your own sources (referrals, partners, web, ads) for 3 straight months
3. Systems & assistant	Get out of admin work	Assistant hired · every recurring task has an SOP · under 10 hrs/week on admin
4. Build the team	Earn on other agents' production	3–5 producing agents · overrides cover your base expenses
5. Brokerage on coast	Run the company, not the phones	A sales manager runs the floor · renewals + overrides cover your lifestyle without you selling

> Phases 2 and 3 overlap on purpose. **Start building your lead engine now** — 30 minutes a day, even while you dial.

03 · PHASE 1 · NOW – MARCH 2027

Master the dialer

The dialer is your paid training ground and your funding source. Treat every bought lead as reps and every commission as seed money for Phase 2.

> **Open enrollment is your biggest window.** ACA open enrollment runs Nov 1 – Jan 15 on HealthCare.gov (Dec 15 for a Jan 1 start). Clear your calendar, pre-contact last year's clients, and dial more hours than any other month.

Daily rhythm — time-block it

8:30 – 9:00	Review yesterday's numbers, set today's targets
9:00 – 12:00	Power dialing block — no email, no social
12:00 – 1:00	Callbacks, quotes, applications
1:00 – 1:30	**Own lead engine:** one post, one partner email, one referral ask
1:30 – 5:00	Second dialing block
5:00 – 5:30	Log everything in GoHighLevel, schedule follow-ups

Get elite on the phone

- Record calls; review 3 a week — one win, one loss, one no-show
- Write your top 5 objections and a tested answer to each
- Ask for referrals at the end of every sale: "Who else do you know who's self-employed or paying too much?"
- Put every sold client in your own CRM (check your contract on lead ownership)

Money rules

- Know your cost per sale: lead spend ÷ policies sold
- Save 3–6 months of expenses before cutting bought leads
- Set aside 10–20% of each check for your Phase 2 marketing budget
- Track chargebacks: how many policies stay active after 90 days

04 · PHASE 2 · JANUARY – DECEMBER 2027

Build your own lead engine

Getting off the dialer means owning where your leads come from. Build five channels, ranked by cost and speed. Goal: 50% of sales from these by the end of 2027.

Channel	Cost	Speed	What to do
1. Client referrals	Free	Fast	Ask at every sale, at 30 days, and at renewal. Your Refer & Earn automation is built — turn it on and promote it.
2. Partners trucking, CPAs, realtors	Free–low	Medium	Work the trucking partner game plan: dispatch, factoring, lease-purchase first. Add CPAs, payroll companies, and P&C agents who don't sell health.
3. Small-business outbound	Low	Medium	Send the restaurant and contractor sequences. 50 new businesses a week. One group case can equal 20+ individual policies.
4. Website & search	Low	Slow	Fix orphan pages and sitemap from the Sept 8 SEO report. Every page pushes to one action: book a call or get a quote.
5. Paid ads Google, Facebook	High	Fast	Start only after you know your close rate. Test $500–$1,000/month on one niche.

Pick a lane and own it. You already have more trucker content than most brokers in the country. Become "the health insurance agency for truckers and 1099 workers," with South Florida small group as your second lane. Spanish-language pages are a real edge in Miami and trucking.

Content that earns leads — 1 hour a day

- Short videos answering one question: "What does an owner-operator pay for health insurance?"
- Post in owner-operator Facebook groups and on LinkedIn
- One chamber or BNI event a month — bring your one-pager
- Google review from every happy client, the day their ID card arrives

Turn visibility into calls

- ~900 impressions/day but ~4 clicks — the site is seen, not clicked
- Rewrite titles on your top 20 pages to promise a specific answer or price range
- "Get your quote in 2 minutes" button above the fold on every page

05 · PHASE 3 · MID 2027 – 2028

Systems & the executive assistant

Hire when admin is stealing selling time, not when you "feel busy." Trigger: 15+ hours a week on paperwork and follow-up, and monthly income that covers the hire three times over.

Hire in this order

#	Role	What they own
1	**Virtual assistant (part-time)** ~$800–$1,500/mo offshore; more US-based	Inbox, calendar, CRM updates, document collection, review requests
2	**Licensed service / renewal assistant**	Client questions, carrier issues, renewals, cross-sells. Must be licensed to discuss plans or enroll
3	**Executive assistant**	Your schedule, projects, vendors, and hiring as the team grows

Pay varies by location and experience — check current rates before posting a role.

Build these 8 SOPs before you hire

Record a Loom each time you do the task; the assistant turns it into a checklist.

- New lead intake and first contact
- Quote and application process
- Post-sale onboarding
- 30-day check-in + review request
- Referral payout process
- Renewal outreach (60 days out)
- Chargeback and lapse recovery
- Weekly reporting

Automate what a person shouldn't do

- Speed-to-lead text within 60 seconds
- Missed-call text-back
- Appointment reminders
- Birthday and renewal touches
- Amanda (AI agent) booking prospects straight onto your calendar

06 · PHASE 4 · 2028

Build the team

A brokerage grows when other agents produce under you. Recruit once your lead engine makes more leads than you can work — extra leads are what attract good agents.

> **Get your contracts right first.** Work with your upline or an FMO/IMO on agency-level carrier contracts so you earn overrides. Put in writing: commission splits, who owns the book, and what happens if an agent leaves.

Who to recruit

- Newly licensed agents you train on your system
- Bilingual agents for Spanish-speaking and trucking clients
- Experienced agents stuck on a dialer who want real leads
- Agents in other licensed states for time zones and local markets

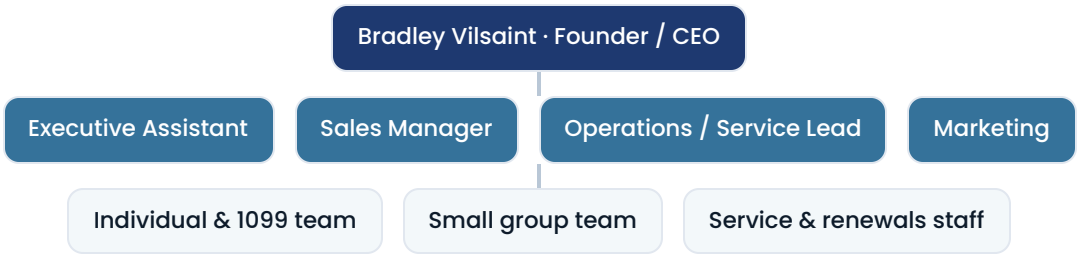

The deal & the rhythm

- **You give:** leads, scripts, CRM login, SOPs, weekly training
- **They give:** production and loyalty
- Daily 15-minute huddle · weekly numbers review · monthly skill training
- Promote your best closer to team lead at 5+ agents

07 · PHASE 5 · 2029 +

Brokerage on coast

"On coast" means the business runs a full month without you selling a policy: recurring renewals, people running each function, and numbers you can check in 30 minutes a week.

Your job as owner

- Big group and partner deals
- Recruiting and developing leaders
- Marketing strategy
- Watching the numbers

Grow & protect the asset

- Small group, level-funded, ICHRA: yearly renewals, stickier clients
- Add dental, vision, life, supplemental per client
- A clean, documented book is what makes the agency valuable to a buyer or partner

08 · RETENTION

Retention & your book of business

Every client you keep pays you again next year and sends referrals. Losing one costs the renewal and, early on, a chargeback. Retention is the cheapest lead source you'll ever have.

The client touch calendar

When	Touch	Who does it (later)
Day 1	Welcome text + email, portal login	Automation
Day 7	"Did your ID card arrive?" + how to use it	Automation
Day 30	Check-in call + ask for a review and a referral	Assistant
Every quarter	Short newsletter or tip	Automation
Birthday	Text from you	Automation
60 days before renewal	Review call: price, doctors, income changes	Licensed assistant
Any claim / billing issue	Same-day callback	Service lead

> **Cross-sell at every review:** dental and vision, life insurance, and — for business owners — moving from individual plans to a group, level-funded, or ICHRA setup for their team.

09 · MEASURE & PROTECT

KPI scorecard

Track these every Friday. Set your own targets after two weeks of honest tracking — your real baseline matters more than industry averages.

Metric	How to calculate	Why it matters	Phase
Dials & talk time	From the dialer	Effort is the input you control	1
Contact rate	Conversations ÷ dials	Shows lead quality	1
Close rate	Sales ÷ quoted prospects	Your core skill	1+
Cost per sale	Lead + ad spend ÷ sales	Decides which sources to keep	1+
90-day persistency	Active at 90 days ÷ sold	Protects you from chargebacks	1+
% sales from own sources	Own-source sales ÷ total	The "off the dialer" meter	2
Referrals asked / received	Weekly count	Cheapest leads you'll get	2+
Active partners	Partners sending leads	Trucking & CPA pipeline	2+
Admin hours / week	Your time log	Tells you when to hire	3
Production per agent	Sales per agent per week	Team health	4+
Renewal rate	Renewed ÷ up for renewal	The "on coast" engine	5

Compliance guardrails

General guidance, not legal advice — confirm specifics with your FMO, carriers, or an insurance attorney.

- **Consent before you call or text.** Follow TCPA and Do Not Call rules; get written consent on every web form and keep the record
- **ACA consent rules.** Never enroll or switch a Marketplace plan without documented consent
- **Referral payouts.** Paying unlicensed people is restricted in many states — check before paying Refer & Earn
- **Marketing claims.** No "free" or "$0" promises you can't back up; no carrier or government logos without approval
- **Team licensing.** Anyone discussing plans or enrolling must be licensed and appointed in that state
- **E&O and records.** Keep E&O coverage; store recordings, consents, and applications in one place

10 · ACTION PLAN

Your next 30 days

Open enrollment starts **November 1, 2026**. These four weeks set up your best season yet while laying the first bricks of Phase 2.

Week 1 — Know your numbers

- [ ] Set up the KPI scorecard and track every day
- [ ] Calculate your cost per sale on company leads
- [ ] Write your top 5 objections + best answers
- [ ] Open a separate savings account for your reserve

Week 2 — Turn on what's built

- [ ] Switch on referral automation in GoHighLevel
- [ ] Send the 37 verified restaurant contacts through your sequence
- [ ] Fix sitemap and orphan pages from the Sept 8 SEO report

Week 3 — Partners & past clients

- [ ] Contact 10 trucking partners with the free value-add offer
- [ ] Reach every past client: book an open enrollment review
- [ ] Ask 5 happy clients for a Google review

Week 4 — Open enrollment prep

- [ ] Block Nov 1 – Jan 15 for selling first
- [ ] Load open enrollment emails and texts into GoHighLevel
- [ ] Pick your one niche for 2027
- [ ] Start the daily habit: 30 min on your own lead engine

> **The one habit that changes everything:** 30 minutes a day on leads you own. Stack that for a year and the dialer becomes optional.
